

HARBOUR CHARGES IN THE PORT OF MARIEHAMN

Approved by the Board of MHAB on 24 November 2020, valid as of 1 January, 2021

§ 1 GENERAL TERMS AND CONDITIONS

Port of Mariehamn will levy a harbour charge on any maritime commercial passenger vessel entering the port area of Mariehamn in accordance with the rates (**EUR** herewith;

1.1 The basis for the charge is the maximum length of the vessel (LOA) and for a passenger vessel in regular liner traffic additionally the net tonnage (NT) of the vessel. The vessel charge per call for a passenger ship in regular traffic is calculated by multiplying the respective price unit with the maximum length of the vessel (LOA) and with the net tonnage (NT) of the vessel, and thereafter adding the sums. The minimum rate, however, shall always be charged (§2, section 1).

The basis for calculation is valid for each specific calendar year and vessel, however so that a vessel owned by the same shipping company can change the route or be replaced by another vessel without this breaking the calculation of the charge.

1.2 The vessel is considered to be in regular traffic when it maintains regular liner traffic according to a published and by the port acknowledged timetable, and is continuously in traffic without an interruption during the ongoing calendar year for a period of at least eleven (11) months, and calls the port at least four (4) days a week.

When introducing new liner traffic, the above mentioned period of eleven (11) months may fall on two consecutive years.

Interruptions due to force majeure, annual overhaul, change or sales of a vessel do not break the regular traffic of the vessel.

Port of Mariehamn has the right, when there are sufficient grounds, to not accept an interruption of regular traffic.

1.3 In order to be able to determine the basis for the charge the captain of the ship or her/his representative is obliged to make the appropriate notifications for calculation of the charge.

1.4 Harbour charges are not levied on;

- Vessels arriving in a harbour of refuge.
- Vessels arriving in a harbour in order to leave an ill person ashore.

§ 2 PASSENGER VESSELS

2.1	2021
Passenger vessels in regular traffic	
Price unit for the maximum length of the vessel	6,81
Price unit for the net tonnage of the vessel	0,0127
