over 30000	206,66

The charges above are levied separately for mooring and unmooring the vessel.

The charges are the same for manual and automated mooring and unmooring.

Passenger ships in regular timetable-based traffic lying in the port for a short period of time, not including ships in cruise traffic or passenger ships similar to those in cruise traffic, pay only the mooring fee on their regular runs.

Mooring and unmooring charges are levied also for transfers and shifting.

For mooring and unmooring vessels over 1,000 NT it is mandatory to use the staff provided by the Port of Mariehamn.

The fee for mooring/unmooring between 18.00 - 07.00 is raised by 100 percent.

Value added tax is added to the charges for vessels in domestic traffic.
